

Non-School Participation Waiver

A student who participates in school sponsored activities may participate in a non-school sponsored sport during the same season with approval of the Activities Director. Such outside participation shall not conflict with the school sponsored activity. However, any student who participates in a sport in violation of this rule shall be ineligible to participate on a school sponsored team in that sport for 12 calendar months.

A student who chooses to give non-school participation priority over the school sponsored program may jeopardize his/her status or standing as a member of the school sponsored sport program.
